

MS

*SINGLE-DISC FLOOR MACHINES*

## MS - SINGLE-DISC FLOOR MACHINES

- Professional single disc floor machines
- Tested under the most demanding work conditions
- Extreme stability and precision of movement
- Concentric coaxial epicyclical gearboxes with 3 planetary helical cog gears made of tempered steel (2 gears in MS 13 AGILITY) mounted on oversized ball-bearings, for extra durability and reliability.
- Handle assembly made of strong, shock-proof, twist-proof material and large diameter steel tube resistant to mechanical stress and chemical agents.
- Essential equipment for the professional cleaning, washing, scrubbing, polishing and waxing of all kinds of floors and even carpets
- Wide variety of brushes, abrasive discs and accessories suited for specialized applications
